

# POLICE FEEDBACK SYSTEM

# INTRODUCTION

The police feedback system is designed to gather valuable insights from the public to improve law enforcement services and ensure community satisfaction. It includes various mechanisms for users to provide feedback, enhancing transparency and accountability.

# FEEDBACK

- **Convenient Interfaces**

The UI feedback features offer user-friendly interfaces that enable easy submission of feedback, ensuring a seamless experience for the public.

- **Customized Forms**

Customized feedback forms allow users to provide specific details and comments, ensuring comprehensive and relevant feedback.

- **Real-time Updates**

Instant live updates and acknowledgments assure users that their feedback has been received and is being addressed.

# QR CODE FEEDBACK SYSTEM

- Effortless Access
- Quick Submission
- Engaging Interaction

# COMPLAINT SUBMISSION

**Complaint Routing:** Detailed complaints, along with quick responses, are directed to the head of the City Police Unit. If deemed genuine, appropriate actions are taken against the concerned police station or office

# INTEGRATION OF CHATBOT FOR FEEDBACK

## Initiating Conversation:

Users can initiate a conversation with the Justice Guard Chatbot via our platform, whether through a dedicated app or web interface.

## User-Friendly Interaction:

The chatbot engages users in a user-friendly and conversational manner, making it accessible to individuals with varying levels of technological proficiency.

## Detailed Feedback

By asking specific questions related to users' experiences with the police, the chatbot ensures a systematic and thorough collection of feedback.

# DATA ANALYTICS IN THE FEEDBACK SYSTEM
